About the Speakers

Christine McEachin, MBA, BSN, RN, has worked in the healthcare field for 30 years in a variety of capacities. She began her career in emergency medical services (EMS) and transitioned to nursing more than 20 years ago. Her areas of focus have been emergency, trauma and emergency preparedness. Christine is the trauma program manager at Henry Ford Macomb Hospital. She participates in various activities to improve trauma care in Region 2 North (R2N) and the state of Michigan. She has participated on regional education and trauma treatment committees and currently serves on the State Trauma Designation Subcommittee and Regional Professional Standards Review Organization (RPSRO) for R2N.

Dr. David A. Moore is a senior staff psychologist at Henry Ford Hospital in the Department of Surgery, Divisions of Acute Care Surgery and Surgical Critical Care, and the Department of Psychiatry. He has extensive clinical and research experience in academic medical centers across the U.S., including three level I trauma centers. Dr. Moore has served in leadership roles at all stages of training, with a deep interest in facilitating the integration of psychology programs into medical settings and providing education to community and professional audiences. Relevant experiences include: senior staff psychologist, Henry Ford Hospital; adjunct professor, La Salle University; doctoral program in psychology; postdoctoral fellowship in behavioral medicine, M.D. Anderson Cancer Center at Cooper; chief psychology intern, medical psychology, University of Miami Leonard M. Miller School of Medicine/Jackson Memorial Hospital.

David J. Darmetko, LMSW, Henry Ford ENHANCE business relationship manager, earned both his bachelor's and master's degrees from Wayne State University and is certified in crisis intervention stress management. David has 10 years of experience providing chemical dependency counseling and program management of a residential and outpatient program. David began working in the EAP field 19 years ago, holding positions as director of account services, manager of account services, account manager and case manager. David has experience working with many different types of organizations, providing consultation and guidance to all levels of management. David is committed to partnering with businesses to strengthen current relationships and build new relationships by increasing awareness and education on how Henry Ford ENHANCE can benefit their organization.

Denise Winiarski JD, CPHRM has more than fifteen years of experience as a health care lawyer, handling areas such as litigation, patient rights, health information management, EMTALA, medical staff issues and risk management. Denise currently works at University of Michigan Office of the Vice President and General Counsel. She was director of risk management and litigation counsel for Henry Ford Health System prior to her current position. Her practice includes support and counseling to the medical providers requested to give depositions or testify in litigation. Denise is a member on several professional organizations, including Michigan and American Societies of Healthcare Risk Management, American Health Lawyers Association, Michigan State Bar Health Care Law Section and Advisory Council for Michigan Health and Hospital Association's Patient Safety Organization.

Norm Buss, PharmD Norm Buss is a pharmacy specialist at Henry Ford Macomb Hospital (HFMH). He received his pharmacy education from Wayne State University and Doctor of Pharmacy at the University of Florida. He is the pharmacy resident program director at Henry Ford Macomb Hospital. His interests include anticoagulation, antimicrobial stewardship and critical care.

Joseph Jankowski, PhD is a nationally-recognized commercialization leader, specializing in early-stage biomedical opportunity assessment and corporate financing and structuring. He is a leader of Henry Ford corporate innovations group. In this capacity, he works to not only commercialize intellectual assets of the health system, but to also use its healthcare infrastructure to establish corporate research activities in the Henry Ford Innovation Institute. An additional passion of Dr. Jankowski 's is teaching in the innovation and entrepreneurship space. He leads the Henry Ford Health System Davidson Fellowship for Entrepreneurs in Digital Health, a monthly convening of System leaders who partner to assess and develop digital health innovations.
