\*There is an LBD support group in Grand Rapids that is not affiliated with the Rinne LBD Initiative. Contact Martha VanDyken at (616) 447-4832 for details.

Lewy body dementia (LBD) is a brain disease that impairs thinking and often mobility. Common symptoms include hallucinations, sleep disturbances, stiffness, and fluctuating levels of awareness.

*The Rinne Lewy Body Dementia Initiative supports Michigan families affected by Lewy body dementia (LBD), educates health care professionals and builds awareness with the general public. It is a program of the University of Michigan Alzheimer's Disease Center.*
