

Infant Safe Sleep Class

Join us for an interactive chat with community health partners about ways to create safe sleep spaces for infants. You'll learn how to avoid common practices that can cause sleep related injuries. The session will include games, discussion and resources to help parents decide "Is that space safe?" every time they lay baby down to sleep.

Wednesday, January 13, 2021
6 p.m.

Registration Required

[Click here](#) to register. Registered participants will be emailed a Webex link to attend the virtual class and a resource packet.
