

Messaging Training

Learn how to tell your Recovery Story

Learn language that you can use to talk with your friends, family, and policy makers about recovery from addiction to alcohol and other drugs. This messaging is a result of in-depth public opinion research with the recovery community and the general public. Learn important information about anonymity and sharing your recovery story. We encourage you to use this "messaging" or language in all of your recovery advocacy whether you are speaking out as a person in recovery or as a family member or friend.
